Re: Standing Sign Application Project Statement for Move to 63 Trapelo Road

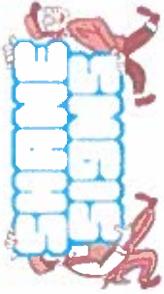

We are looking to replace the portion of the currently existing standing sign in the front yard area that displays the name of the business. The new sign would be of similar size to previous and display the name of our school - much like the previous tenant. The sign will be 39.68 inches wide (length) and 24.3" tall (height), with a square footage measurement of 6.68 feet. It will hang from the current wood pole and wrought iron hanger. The shape will be rectangular with curved edges to resemble the previous sign, and it will be navy blue with white lettering and yellow/gold details. It will be lit by the previously existing ground lights - one on each side of the sign and will be illuminated between the hours of 4:00-10:00pm.

The need for this sign is for clients to be able to reliably see the name of our school during hours of operation. As we mainly function during after-school hours, this sign will allow the school to be easily located during the evening and through darker seasons as well.

Thank you

Margaret Boswell
